Forecast for Wednesday 13 Sep 2023

Weather: Clear spells and rather chilly, perhaps a few mist patches in the glens around dawn. This will lead onto a dry and bright morning, some sunny spells expected. High cloud increasing from the west with outbreaks of rain soon reaching Skye and the west coast in the afternoon, spreading to all ranges by evening, occasionally heavy.

Chance of cloud-free hill tops above 800m: 80% lowering to 30% by evening.

Low cloud and visibility: No significant cloud at first, but becoming extensive 600 to 900m by evening, patches or occasional 300m then developing. Visibility starting very good or excellent except in any early mist, but falling moderate or poor by evening, occasionally very poor at height.

Met Office Aberdeen Meteorologist's View
Nothing further to add.

Forecast for Thursday 14 Sep 2023
Weather: Rain soon turning showery overnight. Very windy with bright spells and occasional showers during daylight hours, feeling chilly over the summits with gales. Winds easing and the showers becoming well scattered in the evening.

Maximum wind: Southwest 35 gusting 50mph, easing 20mph in the evening.

Chance of cloud-free hill tops above 800m: 80%

Low cloud and visibility: Cloud mainly near or above the summits, but occasional, base 600 to 900m early in the day and in showers. Visibility mostly very good, but moderate or poor in rain and cloud.

Temperature: **Glens:** 7 Celsius rising to 14 Celsius during the day.
At 800m: Plus 5 to 9 Celsius
Freezing level: Above the summits.
